The glib reporter absorbed it all, only to learn later that Messrs. Smith and Ball are practical jokers of the worst type.

Beach Driving

If accidents occur on the beach from carelessness or from not observing sensible precaution it will not be because the DAILY NEWS has not sounded sufficient warning.

Drivers of racers ask that the people be cautioned to keep to the right and keep a straight course. That is if you see a racer coming toward you or overtaking you keep straight ahead. The racer has figured on how to swerve hundreds of yards before you hear him. Drive at all times well to the right and stay there; don't allow your vehicle to wobble; don't try to dodge unless you are a candidate for the graveyard.

Keep the children and dogs off the beach, it is unsafe for them there. It is of as much importance that the bicycle learners keep in a safe place. Tacking back and forth over the beach as they did yesterday was a nuisance.
